

ELLIPSE ADVANCED IPL SKIN SOLUTIONS

CLINICALLY PROVEN, SAFE & EFFECTIVE

Selective Waveband Technology uses a treatment methodology called Selective Photothermolysis, also used with lasers, to target specific chromophores in the epidermis.

The very latest full tested technology, revolutionary anti-aging treatments for many skin conditions, including: ageing, pigmentation, sun damage, thread veins, hair removal and acne.

A course of 3 - 6 individual treatments is highly recommended for effective and lasting results. We will advise you at your consultation.
